native experts & partners

ISO

9001:2015

BSI-certified system

Speed, confidentiality, reliability and accuracy — every project handled with the same sense of responsibility.

OUR STORY

Two friends, one idea — and 30 years of it

Since 1997, uncompromising quality standards and the trust we have earned have kept us a step ahead in our industry.

HOW WE WORK

No handoffs. No guesswork.

**Great translation comes from a great team.
There's no shortcut.**

At the heart of our work is a full-time team working side by side under one roof: translators, editors, project managers and design specialists. Every project is handled end to end with the same discipline and care — never passed on to ad-hoc teams or loose processes.

In-house, full-time team

Not freelance or virtual groups — an experienced team.

Native speakers + a second linguist

Every translation is produced by native-speaker translators and reviewed by a separate editor.

Delivered on time

Disciplined project management and up-to-date workflows.

Confidentiality & accuracy

Consistent, uncompromising quality on every project.

We speak the languages you don't

Alongside our expertise in the English<>Turkish pair, we work worldwide in more than 50 English-based language pairs. Our partners are corporate translation companies that share our focus on quality and bring native-level command of their own languages.

50+ language pairs

Broad coverage across Europe, the Middle East, Asia and the Americas.

200+ native experts

Translators and corporate partners whose mother tongue is the target language.

In-country suppliers

For pairs without Turkish, specialists living in the country of the target language.

Translation, interpreting, localization

Translation & Editing

- Written translation
- Proofreading & final review
- Sworn & notarized translation
- Back translation & linguistic validation

Interpreting

- Simultaneous interpreting
- Consecutive interpreting

**Life Sciences &
Medical**

Legal

Finance & Banking

Automotive

**Technical &
Engineering**

Software & IT

**Marketing &
Advertising**

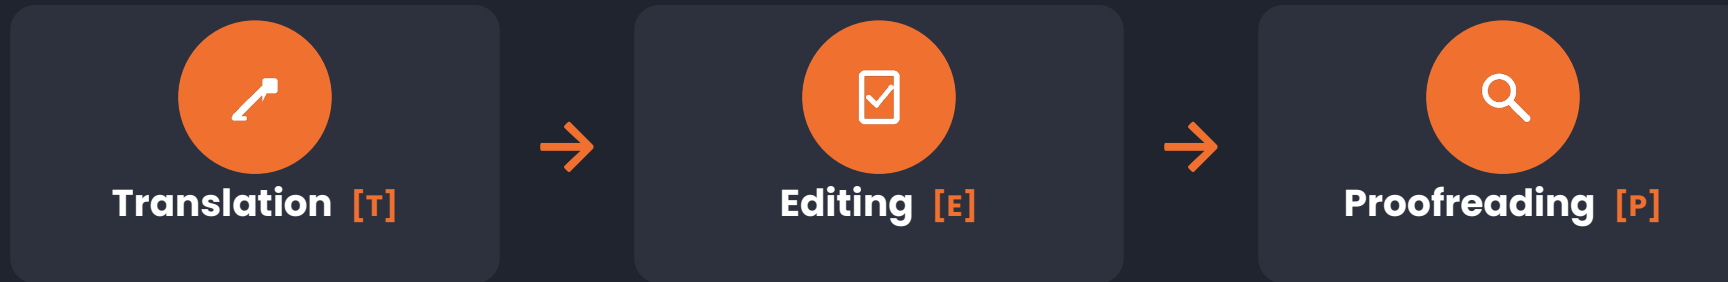

**Travel &
Transportation**

Gaming

OUR QUALITY COMMITMENT

Quality by design, not by luck.

+ any further verification steps a project calls for.

Native-speaker principle

Every translation is produced by specialists whose mother tongue is the target language; editing is carried out by a second linguist.

Full documentation

Under ISO 9001:2015 every step is recorded, and our processes are ready for audit at any time.

Continuous improvement

Our translators go through regular training, measurement and feedback.

ISO 9001:2015

BSI-certified quality management system

The technology behind the words

CAT tools

Trados, memoQ and whichever tools you work with — for consistency, speed and cost efficiency.

Memory & terminology

Translation memories and termbases keep your language, tone and terminology consistent.

AI voiceover

Natural-sounding, high-quality voiceover in more than 130 languages and dialects.

AI-assisted transcription

Audio content turned into text quickly and cost-effectively.

PRICING

The only word count that matters

We price by source word count — the international standard — rather than by page or character. Your budget is clear before the work begins: transparent, comparable and free of surprises.

01

Analysis

Source files are analyzed with translation memory software.

02

Transparent report

Repeated and new word counts are shared with you.

03

Repetition discount

A discount applies to every repeated word at segment level.

04

Clear budget

Budget and timeline are settled before work starts.

Lower cost

Time saved

Consistent terminology

MISSION & VALUES

What we stand for

We take translation and localization off your plate so you can stay focused on your business. Our aim is to carry your brand's own voice into every language — and into new markets.
